Project Recap

Social Buzz, a rapidly expanding technology unicorn, requires swift adaptation to its worldwide reach. Accenture has initiated a 3-month program aimed at addressing these objectives:

- An audit of their big data practice
- Recommendations for a successful IPO
- An analysis of their content categories that highlights the top 5 categories with the largest aggregate popularity

Problem

Social Buzz receives an influx of more than 100.000 posts on a daily basis

How can one effectively leverage and take advantage of such a large volume of content?

Conducting an analysis to identify the five most popular content categories within Social Buzz.
